Mountain West AETC

Director: Laurie Sylla, MHSA

Mountain West AETC – About Us

MISSION: Deliver innovative education and training to improve access to care and quality of life for people who are living with or at risk for acquiring HIV.

Training

- Offers HIV treatment education, clinical consultation, and capacity-building assistance
- Clinicians: Physicians, physician assistants, nurse practitioners, pharmacists, nurses, dentists, and other health care team members.
- Allied health professionals: Medical case managers, social workers, community health workers, mental health and substance use treatment professionals

MWAETC – Priority Areas of Focus

- Contribute to efforts to end the HIV epidemic in our region
- Increase screening, early diagnosis, and early initiation of ART
- Reduce disparities among Black & LatinX MSM to access PrEP
- Increase provider knowledge and willingness to provide care to individuals who are transgender
- Increase capacity to provide appropriate care and treatment for individuals who use substances, especially opioids
- Increase provider capacity to address social determinants of health and to provide trauma-informed care
- Create distance-based learning communities

MWAETC - Programs You Can Benefit From

AIDS CLINICAL CONFERENCE – Educating healthcare professionals on the latest HIV treatment and research through live and webcast lectures

DENTAL PROGRAM – Providing HIV oral health training and consultation to health care professionals

HIV IN CORRECTIONS PROGRAM – Training health care providers in correctional settings through preceptorships and an annual conference

MWAETC HIV ECHO – Building capacity of rural health care providers through weekly telehealth sessions including case discussions with an expert panel (www.hivecho.org)

NATIONAL HIV CURRICULUM – Offering comprehensive online HIV care and treatment content with free CE (www.hiv.uw.edu)

NURSING CONFERENCE – Training nursing professionals on HIV care and treatment through an annual conference

PRACTICE TRANSFORMATION PROJECTS – Working with selected clinics to improve patient outcomes along the HIV care continuum

PRECEPTORSHIP PROGRAM – Opportunities to shadow expert HIV providers in clinic settings

Washington

Regional Partner Sites:

- **Washington AETC, Seattle, WA**
- **African American Reach and Teach Health (AARTH), Renton, WA**
- **Yakima Valley Farm Workers Clinic, Yakima, WA**

WA PTP Sites:

- **Community Health Center of Tacoma, Tacoma, WA**
- **SeaMar Community Health Center – Salmon Creek clinic, Vancouver, WA (served by Oregon AETC)**

African Americans Reach & Teach Health (AARTH)

Founder Mary Diggs-Hobson

- **Goal**
 - Respond to HIV/AIDS and other major health issues that affect people of African descent
- **HIV Work**
 - WA, CO, OR, UT
 - Bailey-Boushay House
 - 2019 WA State HIV Conference
- **Contact**

Dedra Barrow
dedrab@aarth.org

Yakima Valley Farm Workers Clinic

- The YVFWC New Hope Clinic is a nurse-managed Ryan White Part C Clinic in Yakima, WA.
- **HIV Work**
 - Develop and provide HIV/AIDS training to health care providers who primarily serve Latino migrant farm workers with HIV or who are at high risk for HIV infection and have limited access to medical care
 - Deliver instructional clinical training programs
 - Provide rural nursing preceptorships
- **Contact**
Maria Benavides
mariaben@yvfwc.org

The Mountain West AIDS Education and Training Center (MWAETC)

In 2015, the Northwest AETC and some of the Mountain Plains AETC states merged to form the Mountain West AIDS Education and Training Center. Through state based and regional programs, the new region now serves ten states: Alaska, Colorado, Idaho, Montana, North Dakota, Oregon, South Dakota, Utah and Wyoming. Our name has changed but our mission is the same: increase health care providers' capacity to provide high quality HIV/AIDS care within the region's health care systems by providing HIV treatment education, clinical consultation, capacity building, and technical assistance. Please check out our calendar pages for upcoming events and our training and resources page for your clinical or continuing education needs or just email or call one of the offices.

ABOUT US

MWAETC COLLABORATION

AIDS Clinical Conference

AIDS Clinical Conference (ACC)

- Lectures from regional and national experts
- Sponsored by
 - HMC Madison Clinic
 - UW Center for AIDS Research (CFAR)
 - Treatment Research and Expert Education (TREE)
 - Mountain West AETC
- Usually held on the 3rd Tuesday of each month from 8-9
 - Location Harborview Medical Center (and available on-line)
- For On-line viewing (register)
 - mwaetc.org/training/aids-clinical-conference
- For more information
 - Contact: Victor Ramirez (vmrg1@uw.edu).

AIDS Clinical Conference (ACC): 2019 Schedule

- January – Clinical Implications of Bias, Michelle Andrasik, PhD
- March – CROI Update, UW Faculty
- April – Retention & HIV, Meena Ramchandi, MD, MPH
- May – Trans/Gender Non-Binary People & HIV, Corinne Heinen, MD
- June – Broadly Neutralizing Antibodies, Marina Caskey, MD
- July – Transactional Sex & HIV, Shireesha Dhanireddy, MD
- August – Racial Disparities and HIV, Gregorio Millett, MPH
- September – Adolescents & HIV, Margaret Green, MD, MPH
- October – Stimulant Use & HIV, Steven Shoptaw, PhD
- November – ART Update, Brian Wood, MD

AIDS Clinical Conference (ACC): Upcoming...

- **Tuesday, January 21**

PrEP Update- Jared Baeten, MD

- **Tuesday, February 18**

Clinical Controversies in Primary Care- Jehan Budak, MD

- **Tuesday, March 17**

CROI Update, TBD

Current Location of Talks: HMC 9th/Jefferson (13th Floor)

Mechanics of Weekly ECHO Sessions

Mini-Didactics

- Focused clinical topic
- First 15 minutes of session
- Recorded & archived

Case consultations

- Remainder of session
- 3-4 cases in 1 hour
- Goal: each site contributes at least one case per month

Mountain West AIDS Education and Training Center

Self-collected Extra-genital Gonorrhea and Chlamydia Testing for MSM

Lindley Barbee, MD MPH
Assistant Professor, University of Washington
Medical Director, Public Health – Seattle & King County STD Clinic

This presentation is intended for educational use only, and does not in any way constitute medical consultation or advice related to any specific patient.

MW AETC ECHO "Community"

MAETC HIV ECHO To Date

- Intensive weekly training sessions
>220 sessions, >7,500 CE hours
- Longitudinal mentoring and training
Mean 27 providers/session
- Peer-based HIV knowledge network
53 core clinicians, 30% CHC/FQHC
- Just-in-time clinical consultations
>700 total (mean 3.21/session)
- Focused didactic presentations
>180 total

MWAETC

Corrections Program

Director Lara Strick, MD

MWAETC Corrections Program

- Didactic seminars and lectures
- On-line video trainings
- Preceptorship program for medical providers
- Clinical consultation
- Technical assistance
- Annual conference
 - (Save the Date! – March 21, 2020 in Kennewick)

For more information on Program

- Contact Lara Strick (strick@u.washington.edu)

To schedule Corrections Preceptorship:

- Contact: April Doenges (adoenges@uw.edu).

MWAETC

Dental Program

Director Rolf Christensen, DDS

MWAETC Dental Program

- Key topics:
 - Oral manifestations of HIV
 - HIV screening and diagnosis in the dental setting
 - Oral pain management/opiate use
 - Oral health specialty care and HIV
- In-person trainings
- Web-based trainings
- Clinical consultations
- Technical assistance

For more information on Program:

- Contact: Victor Ramirez (vmrg1@uw.edu).

MOUNTAIN WEST AETC

Preceptorships

MWAETC Preceptorship Program

- **MDs, PAs, and NPs:** 1-2 days in Seattle
- **Corrections:** 2 days with Lara Strick (Washington)
- **Nurses:** 2 days (Portland or Yakima)
- **Pharmacists:** 1 day in Seattle or Portland
- **Case Managers:** 3 days in Seattle
- **Dieticians:** 2 days in Seattle

For more information or to schedule:

- Contact: April Doenges (adoenges@uw.edu).

MWAETC

Practice Transformation Program (PTP)

Director, Samantha Meiring

PTP Goals: Improve Outcomes Along the HIV Care Continuum

- Longitudinal partnership with selected minority-serving FQHCs and Ryan White Clinics
- Data-driven quality improvement initiative focused on clinic-selected point of the continuum
- Currently collaborating with 13 clinics in the region (2 in WA)

OREGON AETC

Sea Mar Community Health Center, Salmon Creek, Vancouver, WA

Dayna Morrison, Program Manager

FQHCs Provide Unique Opportunities to Impact HIV Care

- **Facilitators**

- Improved use of mid level providers and standing orders to streamline care
- Use of care coordinators and the patient-centered medical home model

- **Barriers**

- Access to primary care providers in FQHCs can take months
- Providers need ongoing education balanced with time constraints
- Productivity – competing priorities
- Staff Turnover/Recruitment

Baseline Clinic Characteristics

Care Continuum	Sea Mar Salmon Creek
Routine Sexual Hx Taking	Targeted
STI Screening	Targeted and Symptom Based Screening
PrEP	Treatment available onsite
Hep C Screening	Birth Cohort and Targeted Screening, EHR prompt
Universal HIV Screening	Targeted Screening, one provider screens routinely
Notification/Linkage to Care	Policy and EHR system automatically links to HIV provider within 30 days
Engagement/Retention	20+ patients lost to follow up
Care and Management of HIV	30 patients receive ongoing HIV care from one provider
Care and Management of Hep C	Treatment available onsite

Assessments: Rainbow Chart

AETC Practice Transformation Project Site Assessment Tool

Goal		Red	Orange	Yellow	Green	Blue
Universal HIV Screening (A2)	Clinical Action	No HIV testing conducted onsite;	Universal Screening & At Risk Testing Available but < 20% of active clinic pop has a documented HIV test result in EHR.	Universal Screening & At Risk testing in place with 20 - 50% of active clinic pop who has a documented HIV test result in EHR.	Universal Screening & At Risk testing with 51 - 90% of Active clinic pop who has a documented HIV test result in EHR.	Universal Screening & At Risk testing With over 90% of active clinic population who has a documented HIV result in EHR.
	Admin. Action	No Policy on Testing	Partial Policy on HIV Testing and Counseling (HTC)	Complete HTC Policy is in place, but no execution by the staff.	Complete HTC Policy in place and partial execution by the staff.	Complete HTC Policy in place and active complete execution by the staff.
Goal		Red	Orange	Yellow	Green	Blue
Notification and Linkage (A3)	Clinical Action	All HIV+ patients are referred outside of the facility for all aspects of their medical care.	Site manages general medical care issues but refers HIV+ patients outside of the facility for HIV care.	Site provides basic HIV care including care of the newly diagnosed and initiation of first-line ART, or maintains HIV treatment started by an outside provider.	Site provides intermediate HIV care management with care of newly diagnosed &/or newly identified and limited external referrals for OI management and third line complex ART management	Site provides advanced HIV care with care of the newly diagnosed &/or newly identified with rare referral for HIV or OI management
	Admin. Action	No Policy on tracking of referrals for linkage to HIV care.	Partial Policy on tracking of referrals for linkage to HIV care.	Complete Policy on tracking of referrals for linkage to HIV care with no execution by the staff.	Complete Policy on tracking of referral for linkage to HIV with partial execution by the staff.	Complete Policy on tracking of referrals for linkage to HIV and complete execution by all the staff.

HIV Screening

- **Facilitators**

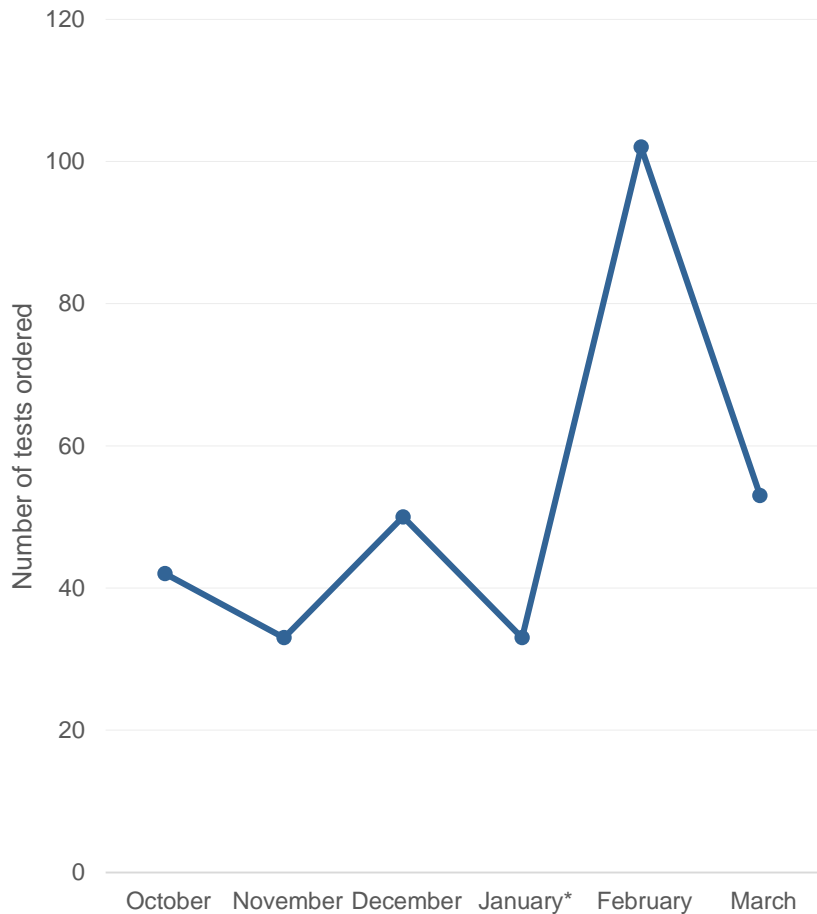

- The Medical Director sees this as a high priority
- HIV screening health maintenance prompt went live Fall 2017
- All staff training on HIV screening (front desk through clinician)
- Normalizing the conversation – SOGI training
- Explore policies to support HIV screening

- **Barriers**

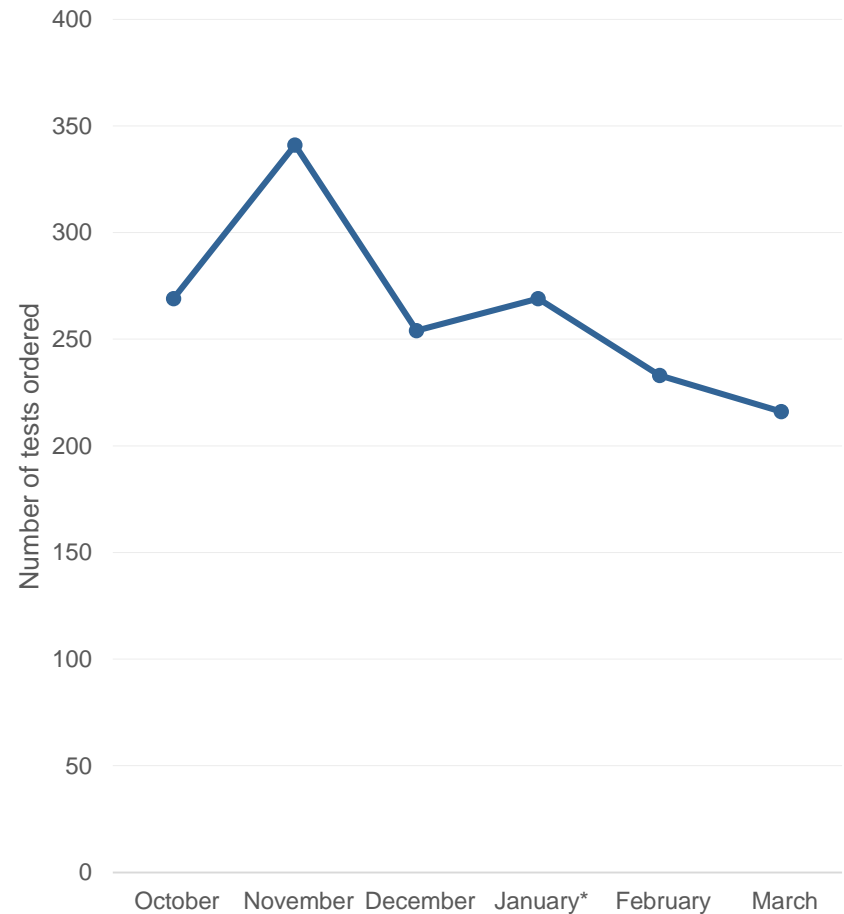

- Patient perception of risk
- Competing priorities
 - A Hepatitis C prompt had to go live prior to an HIV prompt. The HIV prompt was limited to the County, not all clinical sites in the state.
- Prompt fatigue
- Staff turnover
- Time

HIV Screening Uptake

Salmon Creek HIV Screening, by month

Sister Clinic HIV Screening, by month

HIV Screening Next Steps

- Expand SOGI/Inclusive Environments
 - Implementation of UDS measures for SOGI
- Work to expand syndemic approaches (hepatitis C, HIV, and opioid use disorder) to improve primary and HIV care outcomes for people who inject drugs.
- MAs, Care Coordinators, and the Medical Director attended onsite preceptorships at Ryan White clinics
- Clinical consultation through the Oregon AETC
- Use of the National Curriculum for targeted training
- Reverse preceptorship planned

Summary

- Identify clinic champions
- Use assessments to motivate change
- Identify where the FQHC fits in the HIV/Ryan White Care System
- Leverage state and local health departments
- Prioritize quality improvement projects based on clinic needs
